Renaud Jusiak

Research Engineer

Contact :

06.86.84.16.30

renaud.jusiak@gmail.com

Skills

Eye-Tracking (Tobii, SMI)
Statistical analysis
Results communication
Teaching

Softwares

MatLab
R
Statistica
Excel
PsychoPy
Davinci Resolve

Languages

Français (native)
Anglais (B2)

Publications

COVID-19 masks: A barrier to facial and vocal information
Frontiers in Neuroscience, 16.
N. Aguillon-Hernandez, R. Jusiak, M. Latinus, C. Wardak (2022).
https://www.frontiersin.org/articls/10.3389/fnins.2022.982899

(Poster NeuroFrance 2025) When art catches the eye and the heart : An oculo-pupillometric and heart rate analysis of painting perception in adults with ASD, artists, and neurotypicals.
D. Senggaran, R. Jusiak et al. (2025)

Interests

Science — Boudlering
Circus arts — Creative Writting
Fiction (Book, Film, Game)

Internships & Professional experiences

Feb. 2026 - Dec. 2026
Research engineer, INSERM U1253 Team Autism :
Processing of social and emotional information, Eye-tracking as a tool for autism screening
Data processing, Statistical analysis, Scientific communication, Teaching

July. 2024 - June 2025
Research engineer, INSERM U1253 Team Autism :
Perception and reactivity to art in artists and individuals with Autism Spectrum Disorder
Acquisition and Processing of physiological (oculometry, pupillometry, ECG...), Experiments with ASD subjects, Participant recruitment, Statistical analysis, Scientific communication, Teaching

Dec. 2022 - June 2023 & Jan. - April 2021
Research intern, INSERM U1253 Autism Team :
Effects of face mask on emotion recognition, facial exploration and physiological reactivity, in adults and children
Experimental protocol design, Creation of video stimuli, Experiments with children, Acquisition and Processing of oculometric and pupilometric data, Statistical analysis, Results interpretation, Written and Oral presentation of the results

May -June 2019
Research intern, CerCa Team ExSeCo
Effects of aging on motricity simulation abilities
Literature review, Participant recruitment, Experiments with elderly people

Education

2019 - 2021 & 2022 - 2023
Master's degree in Cognition, Neuroscience and Psychology - University of Tours
Integrative Neurosciences, Neurodevelopment, Statistics, Ethology, Ethics, Psychology, Linguistics ...

2016 - 2019
Bachelor's degree in life sciences - Animal Physiology and Neurosciences - University of Poitiers
Genetic, Neurosciences, Cardiorespiratory Physiology, Cell biology...
